A Guide to Preparing for Post-Secondary Education from your State Representative

A Message from your State Representative

As high school graduation approaches, the question of whether to pursue further education lingers in the minds of many students. Some choose to move directly into the workforce. Others wish to attend a vocational or technical school. Some students decide that a four-year college or university is the best choice, while others attend a two-year junior college. There are many factors which go into such a decision, and not every student will make the same choice.

Those who choose to continue their education must plan and prepare for this next chapter of their lives. Is a private or public school better for a particular student? Will he or she have the financial resources to complete a degree? How can someone find information about a certain school? What high school classes are needed to be accepted into a college or university?

These are all common questions to which many high school students and their parents need answers. This booklet is a guide for finding those answers through state and federal agencies, the Internet and from various Indiana schools.

Throughout this book are addresses, phone numbers and/ or Web sites which may be very helpful in a student's search for the right school.

If you have any further questions or concerns, please feel free to contact the Statehouse office.

Meeting Indiana's

Core 4 Requirements

Core 40 was developed in 1994 by business, labor, community and education leaders as a standard set of high school courses students secure their post-high school options, whether they choose further education or immediate entry into the workforce. Core which provides students with the knowledge and experience essential for a well-rounded education. By completing this program, 40 includes the courses required for regular admission at Indiana's public colleges and universities.

These new requirements go into effect for students entering high school in fall 2006. With these changes, students will have the The Indiana State Board of Education has adopted new course and credit requirements for earning a high school diploma option of earning four diploma types:

1. General HS Diploma - 40 Credits

En	Ž Ž	5	So
English/ 8 Credits: must include Language Arts literature, composition and speech	4 Credits: 2 in Algebra I or Intergrated Mathmematics I 2 in any math course	4 Credits: 2 in Biology I 2 in any science course	4 Credits: 2 in U.S. History I in U.S. Government 1 in any social studies

4. Core 40 with Technical Honors

Minimum 47 credits

- Complete all requirements for Core 40.
- Complete a career-technical program (related sequence of 8-10 career-technical credits)
- Earn a grade of "C" or above in courses that will count toward the diploma.
- Have a grade point average of "B" or
- options below, one of which must be A or B: requirements by completing two of the Complete state recognized certification
- driven assessment, and score at or A. Take WorkKeys, an industryabove a designated level on each of the three core readiness subject areas (mathematical reasoning, reading for information, and locating information)
- school /college credit courses B. Technical, transferable dual high resulting in 6 college credits**
 - C. Professional career internship or cooperative education**
- D. A state approved industry recognized certification**

**Must be in the career-technical program area of study.

What you need to know...

High school students must pass the ISTEP+ Graduation Qualifying Exam (GQE) to be eligible for a diploma. The Class of 2000 was the first class to be required to meet

this standard. Students who do not pass the GQE on the first attempt (during fall of grade 10) have four more opportunities to pass the exam: twice in grade 11 and twice in grade 12. In addition to the GQE requirements, students must complete all other state and local graduation requirements.

Common Questions about the GQE

What does the GQE cover?

- English/language arts through Grade 9
- Mathematics through Grade 8, plus Algebra I

How do I meet the GQE requirement?

- Fulfill the requirements of one of the following GQE Waivers:
 - o Core 40 waiver
 - Evidence-based waiver
 - Work-readiness waiver

When is the GQE?

- Students take the test for the first time in the fall of their sophomore year
- The test is administered in four sessions, totaling 6 ½ hours over three days
- Students must be present for testing all three days. There are no make-ups.

What if I don't pass?

- You can retake the test at least four more times (September and March of your junior and senior year)
- Once you pass a specific part of the test, you don't have to retake that section
- Ask your teachers and guidance counselors about extra help in areas you didn't pass.

What if I have special needs?

- Several testing accommodations are available for students with disabilities or limited English proficiency, such as additional time and changes in test scheduling format and setting.
- Talk to your parents and teachers about the specific accommodations in your Individualized Education Program, Section 504 Plan, or Individual Learning Plan.

the SAT

Your passport to higher education

The SAT Reasoning Test is a measure of the critical thinking skills you'll need for academic success in college. The SAT assesses how well you analyze and solve problems—skills you learned in school that you'll need in college. The SAT is typically taken by high school juniors and seniors.

The SAT includes three sections, the mathematics section, critical reading section, and the writing section. Each section of the SAT is scored on a scale of 200-800, with two writing subscores for multiple-choice and the essay.

Financial Aid, Scholarships, & Loan Info

Applying for Financial Aid.

Almost all financial aid requires you and your family to complete the **Free Application for Federal Student Aid (FAFSA)**. The deadline for completing the **FAFSA** form for state aid is March 1 of the year you wish to attend. If you want federal aid only, the federal year runs from July 1 through June 30, and you can file as late as June 30 of the college year for which you need assistance. For more details about when and how to do this, contact the financial aid office at your college or on-line with the U.S. Department of Education at www.ed.gov.

State aid in the form of grants, scholarships and work study are available. The State Student Assistance Commission offers grants based on need and on scholarship. For information on all these you may contact the State Student Assistance Commission at 150 West Market Street, Suite 500, Indianapolis, Indiana 46204 or by e-mail at www.state.in.us/ssaci. You may also contact them by phone by calling (317) 232-2350 or 1-888-528-4719 from outside the 317 area code.

Forms of Federal Aid

- •<u>Federal Pell Grants:</u> These are not loans and need not be repaid. They are awarded based on need and may be used towards tuition, room and board or books.
- •<u>Federal Stafford Loans:</u> These are self-help loans which need to be repaid, and are both subsidized (the government pays the interest until you graduate) and unsubsidized (not need-based and you pay the interest from the beginning).
- •<u>Federal PLUS Loans for Parents:</u> These are not need-based. Repayment of principal and interest begins within 60 days of disbursing the loan.
- Federal College Work-Study Programs (CWS): The student works "in the public interest" on campus or with a private not-for-profit or public agency.
- <u>Federal Perkins Loan:</u> These are funded at a low interest rate by the federal government and awarded by the institution. Repayment and interest begin nine months after a student leaves school.
- •There are now tax credits available to parents through the HOPE Scholarship Program and Lifetime Learning Credits, IRA Education Savings Accounts and Student Loan Interest Deductions.

Researching Scholarships

In addition to state and federal aid, many schools offer **scholarships**, as do businesses. Check with your parents' employers to see if they offer scholarships for their employees' children. Local fraternal organizations, churches and newspapers frequently offer scholarships and are worth contacting. Go to the library and ask to be directed to reference materials on scholarships and grants. The **State Student Assistance Commission** provides online access to various other sources of aid, including the College Board (SAT) Online, fastWeb (one of the best sites to start your scholarship search), FinAid, NCAA, Online Study Abroad Directory, U.S. Department of Education (for Pell Grants, Stafford Loans, etc.) and others. College is expensive, but you will be surprised at the number of resources which are available if you only take the time to check them out.

A four-year college may not be for every student, but **scholarship** and **grant money** is available for most post-secondary education. Students might also decide to work and go to school part-time. Some assistance is even available to part-time students. Talk with your financial aid officer for direction in getting started.

State Student Assistance Commission Scholarships

- •The Indiana Higher Education Grant Program is a need-based program for Indiana students attending Indiana post-secondary institutions which receive funding from the General Assembly.
- •The Hoosier Scholar Award is a \$500 one-year scholarship awarded to high school seniors on the basis of academic merit.
- •The Twenty-First Century Scholars Program is for families of low to moderate income and is based on a pledge made by 8th graders to stay drug and alcohol free, to maintain at least a C average, and to attend an Indiana college or university.
- •The Nursing Scholarship Award is available to Hoosier students choosing nursing as a career and who agree, in writing, to work in nursing in Indiana for at least two years after graduation.
- •Also available is a **Minority Teacher Scholarship** available to minority students who major in special education, occupational or physical therapy. This scholarship may not be based solely on merit. Need may be considered but is not required. Students must make a pledge to teach in an Indiana school or practice in an accredited school, vocational rehabilitation center or other developmental disabilities center for a certain period of time.

TOP 10 Mistakes Made on Scholarship Applications

- 1. Forgetting to include your name and address
 - 2. Submitting an incomplete application
 - 3. Being rude or abrasive to judges
 - 4. Submitting an application with smudges or stains
 - 5. Applying when you do not meet the minimum requirements
 - 6. Sending it "postage due"
- 7. Mailing the envelope without the application
 - 8. Submitting inappropriate supporting documentation (i.e. your baby picture)
- 9. Using messy handwriting or an illegible font
- •The Robert C. Byrd Honors Scholarship is a very selective federally-supported merit-based scholarship program awarding \$1500 per year scholarships to selected Hoosier students.
- •Finally, Indiana has a **Summer State Work Study Program** for students who have used an Indiana Higher Education Grant the previous academic year. The work may be performed at state, city and local government offices, post-secondary schools or private not-for-profit organizations.

Accessing Information

The Internet can be a very helpful tool in answering questions about financial aid, loans and scholarships. Many Web sites provide detailed explanations of the process of applying for assistance. They also may provide links to other informative and credible websites. These are only a few of the hundreds of websites available to students and their parents. If you do not have access to the Internet, try your local library or call one of the phone numbers provided below.

Indiana's avings Plan for College: College Choice 529

The CollegeChoice 529 Investment Plan® is distributed by JPMorgan Distribution Services Inc. and features investment options, which invest in portfolios managed by several well-recognized investment advisors. This information is provided for general

educational purposes only. It is a program which assists students in saving money for their post-secondary education.

An adult (over 18 years old) can establish a College Choice account for a child as soon as he or she has

been assigned a Social Security number. Accounts can be established for newborns (younger than one year) at any time during the year. Children older than one year must be enrolled between September 1 and January 15. The earlier you start contributing, the better.

Whoever opens the account is considered the "owner", while the student is the "beneficiary." The enrollment fee is \$10, and an annual fee of 0.5% of the value of the account will be charged to cover the costs of maintaining the account.

When you have received a confirmation that the account has been opened, you can begin making

contributions. The minimum investment to open an account is \$50 per portfolio. After the account has been established, the minimum investment is \$25 per portfolio. All money deposited and earned will remain in the account until the student is enrolled in a post-high school educational

institution. Once the enrollment is verified, the money can be distributed to pay all or a portion of the student's tuition and/or room and board expenses. Institutions eligible to receive this money include most accredited four-year

colleges and universities, many accredited two-year institutions and certain proprietary or vocational schools.

Federal and state income and capital gains taxes on the account's earnings are deferred until the money is used to pay higher education expenses. Also, the savings are taxable to the student, who usually has a lower tax rate than an adult.

This plan also allows for relatives or other interested parties residing in other states to open an account for a child who resides in Indiana. In the case of a child's relocation to another state, contributions may continue to be made, and the student will remain eligible for benefits.

The Voice of Experience

These tips can make the process of financing your education a bit easier:

* * * * *

- Answer ALL the questions on the forms.
- Be sure to sign your name on each of the appropriate spaces.
- If you take out loans, be sure to borrow only as much as you really need.
- Turn in your financial aid paper work early to ensure that it will be processed on time.
- Be patient when attempting to straighten out any miscommunication with the financial aid office.
- Keep a file folder of all documents and information concerning your loans, scholarships and grants.

CHOOSING YOUR CAREER

hoosing which career is best for you is a strenuous task. No one expects you to set your life's plan in stone as soon as you graduate from high school. However, as you decide which college classes to take, or as you decide which vocational program to pursue, you may want to think about the types of jobs which interest you.

There are many points to consider when choosing a career path. It is up to you to decide which factors are high priorities.

Fastest Growing Occupations

- 1. Home Health Aides
- 2. Network systems and Data Communications Analyst
- 3. Medical Assistant
- 4. Physical Assistant
- 5. Computer Software Engineer, Applications
- 6. Physical Therapist Assistants
- 7. Dental Hygienists
- 8. Computer Software Engineer, Systems Software
- 9. Dental Assistants
- 10. Personal and Home Care Aides

FASTEST GROWING FIELDS

- 1. Home Health Care Services
- 2. Software Publishers
- 3. Management, Scientific, and Technical Consulting Services
- 4. Residential Care Facilities
- 5. Facilities Support Services
- 6. Employment Services
- 7. Independent Artists, Writers, and Performers
- 8. Office Administrative Services
- 9. Computer Systems Design and Related Services
- 10. Outpatient, Laboratory, and Other Ambulatory Care Service

To help narrow your choices, set some guidelines for deciding. Find a field which truly interests you, one at which you can excel and one that will help you achieve your personal goals. You may want to choose a career that is in a growing industry where there is a greater chance of job openings, new positions to fill, opportunities to advance and/or higher pay.

Although it is not absolutely crucial, it is very helpful to start planning as early as possible because it may take time to learn enough about yourself to know what type of job is best for you. It is also likely that you will change your mind several times before settling into the right career.

Talking to people who work in the field you find interesting can help you get an idea of the types of jobs available. Sometimes job shadowing is an option. Job shadowing is a chance to spend time in the workplace with someone who has a career about which you want to know more. Your guidance counselor may know of a program or company that provides an opportunity for job shadowing.

Your imagination is your preview of life's coming attractions.

IVY TECH Community College

Ivy Tech is a statewide open-admissions community college that has grown into the second-largest post-secondary institution in Indiana. Our programs lead to two-year associate's degrees and one-year technical certificates.

With 23 campuses and low tuition, lvy Tech is both convenient and affordable.

Each year, Ivy Tech partners with fouryear colleges and universities to add new transfer opportunities for our students. More and more Ivy Tech graduates are building on their associate's degrees and continuing to the bachelor's level.

We also serve the state's businesses and workers with customized education and short-term skill-building programs. Many courses are designed to let professionals earn continuing education units.

Who Should Attend The Community College of Indiana?

The Community College of Indiana is for virtually anyone offering something for people of any age and any background. Those desiring to improve themselves by learning new skills, earning a degree or exploring possible avenues for their futures are all potential Community College of Indiana students.

What are the Requirements?

The Community College of Indiana has an open enrollment policy, which means that enrollment is open to everyone. To apply, students must complete three steps:

- fill out an admissions application (available online)
- 2) submit a high school transcript
- 3) take an academic skills assessment test

Ivy Tech offers degree programs at 23 campuses in 14 administrative regions. You can also take courses at many other sites around Indiana.

What Are the Advantages of Attending The Community College of Indiana?

- Ivy Tech is Indiana's most affordable college- costing about half the average annual cost of other schools for tuition and books. Ivy Tech offers higher education at the lowest cost, giving you the perfect value for your investment. That investment could lead to an associate degree that could result in a good-paying job after graduation. Or if you chose to transfer your credits, it will result in a big cost-saving on your way to earning a bachelor's degree.
- Ivy Tech Community College offers more than 150 programs and concentrations statewide. Each campus provides a wide variety of options that let you hit the ground running, whether you want to continue your education at a four-year school or start your career as soon as possible.
- All 23 lvy Tech campuses offer online courses. In fact, you can do more than just take a class you can earn a degree through online learning.

ANOTHER CHOICE

公公U.S. MILITARY 公公

ANOTHER OPTION AVAILABLE FOR YOUNG ADULTS IS TO ATTEND THE TRAINING PROGRAM OF ONE OF THE ARMED SERVICES BEFORE GOING TO COLLEGE. THIS IS A GREAT OPPORTUNITY, AS TUITION IS SOMETIMES REIMBURSED THROUGH THESE ORGANIZATIONS. THE ARMED SERVICES MAY BE JUST THE ROAD YOUNGER ADULTS WHO ARE UNDECIDED IN THEIR FUTURE MAY CHOOSE FIRST. AFTER ALL, THE ARMED SERVICES TRAINS YOUNG MINDS AND REWARDS THEM WITH COMPENSATION, AS WELL AS THE EXPERIENCES OF A LIFETIME.

RESEARCH YOUR OPTIONS!

You may visit any of these Web sites for additional information:

The Army:www.goarmy.com
The Navy: www.navy.com
The Marines: www.marines.com
The Air Force: www.airforce.com
The Coast Guard: www.cga.edu

EACH OF THE FOLLOWING OFFERS TWO, FOUR, OR SIX-YEAR PROGRAMS:

Army

The Army defends the interests of the United States and its allies through land-based operations around the world.

The **Indiana Army National Guard** provides similar opportunites. However, the National Guard allows their enlistees to attend the state college of their choice on a full or part time basis while serving **with 100 percent tuition paid**.

Navy

The Navy defends the right of our country and its allies to travel and trade freely on the world's oceans.

Air Force

The mission of the Air Force is to preserve national security through the use of advanced aerospace forces.

Coast Guard

The Coast Guard protects U.S. coastlines and inland waterways. Founded in 1876, the United States Coast Guard Academy has a proud tradition as one of the finest and most selective colleges in America.

The smallest of the five Federal Service Academies, the Coast Guard provides a four-year Bachelor of Science program with a full scholarship for each individual. Unlike the other Federal Service Academies, however, there are no congressional appointments.

Marines

The only service tasked to be able to operate combined arms in air, land, and sea. The Marines focus on their role as the nation's premier crisis response force, whether it be defending our nation in war, aiding with natural disaster relief overseas, or calming political unrest.
